# Personal Protective Equipment's (PPE) Sales Service

The use of Personal Protective Equipment (PPE) is crucial in various industries to protect workers from potential hazards. Here are some common PPEs and their purposes:

**1. Hard Hats:**

Protect the head from falling objects, impact, and electrical hazards.

**2. Safety Glasses or Goggles:**

Shield the eyes from dust, flying debris, chemicals, or radiation.

3. Ear Protection (Earplugs or Earmuffs): Reduce exposure to high noise levels, preventing hearing damage.

**4. Respirators:**

Filter out harmful gases, vapors, or particles from the air to protect the lungs.

**5. Gloves:**

Guard hands against cuts, burns, chemicals, or contamination.

**6. High-Visibility Vests:**

Make workers more visible, especially in traffic areas.

**7. Steel-Toed Boots:**

Protect feet from falling objects, compression, or punctures.

8. Fall Protection (Harnesses, Lanyards): Prevent falls from heights.

**9. Full-Body Suits and Coveralls:**

Shield the body from hazardous materials or chemicals.

**10. Face Shields and Welding Helmets:**

Safeguard the face and eyes during welding and similar tasks.

The proper use of PPE is essential for worker safety. Employers should provide appropriate PPE, train workers on its correct use, and enforce its use in potentially hazardous environments.
